Basic Storyboard

Title: Limiting a Search
Content: limits for location, format, language, year

Screen shot	Script
Title shot Show list of libraries screen shot	You can use Novanet to find books, journals, government documents, newspapers and many other materials from... ...the ten libraries that form the Novanet Consortium. Your student ID card allows you to borrow from any of these libraries.
Basic Search Zoom to advanced search tab and click Callout limiters all at once. Call out limiters one-by-one	Novanet allows you to do a basic search for materials. There is also an advanced search where you can search in multiple fields... ... and apply limiters to your search term. You can limit searches by library... language...format... and date.
Enter search term "information literacy" Select library limiter Results.	For example to locate items located exclusively at Killam, select Dal Killam from the drop-down list of locations. And click "Go." Novanet has filtered its results to retrieve only items that are part of Killam's collection.
Enter search term "yoga" Select "Sanskrit" language limiter.	Similarly, to locate items in a specific language, choose the language you would like from the comprehensive drop-down list.
Enter search term "Beethoven" and select "musical score". Show results	Limiting by format allows you to search Novanet for specific type of material such as maps, music scores or theses.
Enter "climate change" and select dates 2005-2008 Show results	And limiting by year will provide you with the most recent results, or allow you to limit your search to a specific time period. By applying year limiters, Novanet is able to retrieve the most recent items on climate change.
Call-out all limiters (same as at beginning)	It is also possible to combine limiters, to further narrow your search.
Highlight tabs Callouts to tabs Open Specific Coll tab	There are also some special limits available using the tabs at the top. - <u>Journals/Serials</u> limits your search to just journal titles - <u>Select a Library</u> allows you to limit to the collection of a specific library - <u>Specific Collections</u> limits to particular collections within a library
End shot	This has been a brief introduction to limiting a search in Novanet. If you need any other assistance please visit one of our reference desks or get online assistance with our LiveHelp service. You may also want to view some of our other libcasts on doing library research.
